WORK EXPERIENCE & ACHIEVEMENTS

PayPal India Private Limited, Chennai, India

May 2024 - Sep 2025

Senior Software Engineer | Backend Developer - Payments Domain

- Designed and implemented distributed **rate-limiting** mechanisms for **high-traffic RESTful APIs** within a microservices architecture, improving **fault tolerance and system reliability**.
- Contributed to **platform-wide JDK upgrades** and increased unit test coverage, improving application performance and maintainability.
- Identified and remediated **security vulnerabilities** through secure coding practices and dependency upgrades, ensuring compliance with enterprise security standards.

Walmart Global Technology Services India Private Limited, Chennai, India

Sep 2021 - May 2024

Software Development Engineer III | Backend Developer in Accounts Payable Domain (Finance Data Services)

- **Saved \$143,000 annually** by optimizing Kubernetes resource allocation and database usage.
- Designed and implemented **Disaster Recovery (DR) Plans** and **Error Reprocessing frameworks**, improving system resilience.
- Contributed to large-scale **Mainframe-to-Cloud migration**, enabling **real-time data synchronization** across SQL and NoSQL systems using Kafka and CDC connectors.
- Developed and optimized scalable **REST APIs** supporting **30 TPS**, streamlining onboarding and consumer integration.
- Recognized with the **Excellence Award, Bravo Award**, and other badges for outstanding contributions.
- Conducted Root Cause Analysis (**RCA**) for critical production issues and managed production deployments.

EY Global Delivery Services, Chennai, India

Nov 2020 - Sep 2021

Associate Engineer | Full Stack Developer and Native iOS Developer

- Led the **revamp of a consumer iOS application** by implementing best practices and modern design patterns.
- Implemented **MVVM architecture, Dependency Injection, and the Co-Ordinator** pattern to enhance maintainability.

Zilker Technology India Private Limited, Chennai, India

May 2019 - Oct 2020

Associate Consultant | Full Stack Developer

- Developed **Spring Boot microservices with Confluent Kafka**, handling high-throughput event processing.
- Built a **Spring Batch application using Couchbase N1QL queries**, optimizing data migration for 2 million+ records.
- Implemented interactive data visualizations with **Chart.js** and processed large-scale datasets using **D3.js**.
